VOL. XV. NO. 250. CHARLEROI, WASHINGTON CO., PA. WEDNESDAY, APRIL 14, 1915 ONE CENT

# COMPREHENSIVE SCHEME OF ROAD IMPROVEMENT TO BE CARRIED OUT

### State Administration Plans Announced With Appointment of Commissioner

## CUNNINGHAM GETS BIG JOB

### Allegheny County Controller Gets Highway Job—Senator Sproul Introduces Bill Appropriating $8,500,000 For Two Years' Work.

Governor Brumbaugh's nomination of Robert J. Cunningham, controller of Allegheny county, as highway commissioner was confirmed and the administration plans for highway work for the next two years were announced at Harisburg Tuesday evening. As a result it is more than likely that this as well as other parts of the state will shortly come in for road improvement like that first outlined by former governor John K. Tener.

Governor Brumbaugh sent the nomination of Mr. Cunningham to the state senate Tuesday night and the nomination almost immediately confirmed by a vote of 46 to 0. Commissioner Cunningham will assume his new duties within a few days and will have 5,400 employes under him.

Following out the wishes of the administration Senator William C. Sproul offered a bill in the senate appropriating $8,500,000 with which to carry out a comprehensive plan of road improvement in the state during the next two years.

Of the amount carried by the bill $6,700,000 is specially appropriated for the maintenance and improvement of state highways under the act of 1911 and its amendments. This means that the entire state highway system, including those roads added to the original Sproul plan two years ago, will be retained as state highways. This allowance will give about $300 a mile per year on the state highways, and it is the judgment of Deputy Commissioner Hunter and Chief Engineer Uhler that this amount will be sufficient to keep the roads in very good condition and do considerable permanent work.

The sum of $500,000 is appropriated for the purchase or condemnation of turnpikes upon state highway routes and $1,000,000 is set aside for the construction and maintenance of state aid highways and the remaining $1,000,000 is to be devoted to the payment of a portion of the expense of the maintenance of township roads, as provided by the Jones bill. Representative Jones has introduced a separate bill making provision for the payment of deficiencies due by the state to town ships under the operation of this law.

The appropriation bill introduced by Senator Sproul provides that the appropriations made therein shall include and not be in addition to the amounts received by the Commonwealth for the licensing of motor vehicles during the next two years.

Governor Brumbaugh expects to have the road done under his direction and the direction of a road council, which will consist of himself, State Highway Commissioner Cunningham and Chief Engineer William D. Uhler. Appointments made will be only on merit, though the Republican county leaders, it is said in the various parts of the state will be consulted.

## DOCTORS COME OUT STRONG FOR OBSERVANCE OF GOOD ROADS' DAY

### Meeting at County Seat Productive Of Results in Tangible Way to Physicians.

The Washington County Medical society favors the state-wide Good Roads Day, May 26 and Tuesday afternoon at a meeting at Washington adopted a resolution to that effect. Copies of the resolution were sent to all of the medical societies in the state urging them to adopt a similar resolution and to act in harmony with this movement.

Probably no other class of professional men is affected by bad roads any more than physicians and especially rural practioners which in a measure explains the interest shown.

The society named a committee of three to act with the Good Roads Day committees as follows, Dr. Boyd Emery, Eighty-Four; J. W. Hunter, Charleroi and Dr. A. E. Thompson, Washington.

# POSTMASTERS END SESSIONS

### Three Addresses Feature Closing Meeting at Local Federal Building Tuesday

## QUERIES MUCH DISCUSSED

The Postmasters' Association of Western Pennsylvania carried out with little variance their announced program for the afternoon's session of their April meeting at the Charleroi Federal building Tuesday. Three talks were made and there was a general discussion of the various subjects introduced.

Postmaster J. E. Coatesworth of California, who has taken his office within the last few weeks spoke on "Value of Organization." Postmaster R. Willis Lange of Belle Vernon spoke on "Some Red Tape," and Postmaster John N. Dersam of McKeesport spoke on "Personal Experiences." Postmaster Walter J. McBeth of Braddock was unable to be present and the time for his talk on "Civil Service Popular" was taken up by queries and discussion.

Adjournment was taken after 1 o'clock with the announcement being made of the next meeting to be held in Greensburg on May 11. Monthly meetings are held.

Music, souvenirs and a great display of furniture at Pfleghardt's opening. Thursday, April 15. Come and bring your friends. 238-tf

# FREEDOM OF TWO GIRLS WHO ESCAPED FROM MORGANZA REFORM SCHOOL SUNDAY CUT SHORT

### Two Western Pennsylvania Young Women Taken by Constable as They Trudge Wearily Toward Scenery Hill

The freedom of two girls Esther Harris and Bertha Seiner, who escaped from the Western Pennsylvania Training school at Morganza Sunday night by letting themselves to the ground from the second story window by means of tying sheets together, was very short owing to Constable S. J. Ansil of California.

The two girls were trudging along the National pike near Scenery Hill and as Ansil went flying by in an automobile he recognized one of the girls. Stopping the machine he learned that they had escaped from Morganza and called the school and then returned the girls to Washington where they were met by officers from Morganza Tuesday.

The Harris girl, whose home is at Coal Centre, is a ward from this county having been sent to the training school owing to incorrigibility. The Seiner girl's home it is said is at New Castle.

Officer Ansil had been at Washington bringing to jail a number of miners charged with rioting at the Vesta mines at Fredericktown and was returning home. As he passed the girls he was attracted to the Harris girl as she was walking in her stocking feet. They seemed to be weary and thinking that they had escaped, the machine was backed up and the girls questioned. They were very reticent about giving any information but Officer Ansil took no chances and called the training school and found that the two girls were being hunted. It is supposed that they were making their way to Coal Centre to the home of the Harris girl. Mr. Ansil turned the runaways over to the Juvenile court officer, where the training school officials secured them.

The Harris girl stated that she had thrown her shoes away Monday as they became so muddy and were hurting her feet. They also stated that after reaching the ground by means of the sheets torn and tied together they entered the building from the outside and secured some clothes that were not available in the dormitory in which they slept.

The probation officer of the reform school was in Charleroi Tuesday afternoon looking for the two girls, but found no trace of them. She was assisted by the police in looking for them.

# *TO FIND THE FIRE IS PUZZLE OF FIREMEN*

### Alarm Over Telephone, Amid Excitement, Not Plainly Understood and Queer Mixup is Result—Practically No Damage Done

The puzzle of finding the fire when an alarm came in by telephone proved to be the sort of an enigma that caused Chief J. M. Fleming and two of his companies to hurry in different directions shortly before noon today.

A voice over the telephone announced to Chief Fleming that there was a fire. To him amid all the excitement it sounded like Oakland avenue near Second. He turned in alarm No. 31. Up Fifth street the motor truck climbed and out to Oakland avenue. Just when the firemen with the truck were beginning their search for some sort of a fire, another alarm was turned in from Box No. 13, at Washington avenue and Second street. A company with the ladder and chemical wagon turned out and found the blaze was at the home of H. M. Christie at 212 Prospect avenue. Fortunately it was not dangerous, being a roof fire of little consequence. Two buckets of water extinguished it.

# MAY KEEP ADDRESSES STRAIGHT BY NEW LAW

### Prothonotary Receives Copy of Lately Passed and Approved Statute, Providing For Better System in Preparing Judgments.

Prothonotary A. R. Lewis, of this county is in receipt of a copy of the late Act of Assembly, approved March 31, 1915, regarding the address of the plaintiff in judgment notes. Under this new law, hereafter, the plaintiff of a note, his attorney or duly authorized agent, must certify before judgment is entered of record, the correct address of the plaintiff. Heretofore the prothonotary has had to ascertain for himself the addresses of plaintiffs to judgment notes and it required considerable work and often resulted in wrong

Continued on page 2.

# RELIGIOUS REVIVAL KNOCKS OUT LICENSE

### Judge Van Swearingen Hearkens to Remonstrances From Smithfield When he Hands Down Fayette County Liquor Decisions.

The Fayette county liquor licenses were handed down here Tuesday by Judge J. Q. Van Swearingen. Fifty-seven retail, 9 brewers and 18 distillers' licenses were granted and the number was decreased by one by the refusal of the license to William Barton to conduct the Smithfield Hotel at Smithfield, nine miles from Uniontown. Two months ago the town had a big revival, the result of which was a remonstrance against the granting of the license to Barton that could not be denied. The town will be "dry" for the next year. All six new applicants were refused.

# REPORTS SHOW IMPROVEMENT IN AFFAIRS OF LOCAL HOSPITAL

### Hospital Board at Monthly Meeting Hears Statement of Superintendent

## FIRST REPORT IS PLEASING

### Miss Dahy Gives Statistics—Forty-Two Cases Admitted During Month Majority of Them Being For Surgical Treatment.

Reports showing an improvement in the condition of affairs at the Charleroi-Monessen hospital were made by the superintendent, Miss Genevieve Dahy to the board of directors at their regular meeting held at the institution Tuesday evening. Miss Dahy's detailed report was as follows, it being here first regular report since assuming charge.

| | |
|---|---|
| Number of cases March 1 | 5 |
| Number of admissions in month | 42 |
| Number of emergency cases | 9 |
| Number of operations | 28 |
| Number of deaths | 1 |
| Number of births | 3 |
| Highest number received in one day | 7 |
| Highest number of cases on hand in one day | 21 |
| Number of surgical cases | 31 |
| Number of medical cases | 11 |
| Number of visits by physicians and surgeons | 172 |

It was reported that changes in the interior arrangement of the hospital had been made. The second floor plan has been arranged to give more freedom in removing patients to and from the second floor. Likewise it was reported that a large room at the right of the entrance to the institution had been transformed from the general office into a public ward, because of the need of more room. Miss Dahy told of the need of support in certain lines.

The building committee was instructed to have fences, drives and entrances repaired and the grounds fixed up as well as possible at as little expense as possible.

## SHOOTING DEAD DOG DEADER IS HARD TASK FOR POLICEMAN

### Canine Run Over and Killed by Motorcycle Gets Up and Walks When Plunked With Four Bullets.

Shooting a dead dog dealer proved somewhat of a task for Policeman James Murphy at noon today.

While excitement incidental to a fire was at its height two men on a motor cycle going up Fifth street at a joy-riding pace ran over a shaggy haired dog. The dog immediately rolled over and played dead. The motor cyclists went on.

Finally the presence of the dog on Fifth street was reported to the police and Policeman Murphy started for the spot. He proceeded to shoot the canine twice through the heart and twice through the head. This wakened the dog, who according to authentic stories got up and took some exercise before dying all over again.

# TROUT SEASON FORMALLY OPENS

### Disciples of Isaac Walton Hike to Center and Northern Counties

## MANY GO FROM THE DISTRICT

Disciples of Isaac Walton are hieing to northern and central counties today to get the benefit of the best in the way of fishing. Today is the opening day of the trout fishing season, and if there is any sort of fish popular for fishing purposes in Pennsylvania, it is trout. Among the fishermen, amateur and otherwise, are several from Charleroi whose whereabouts at the present time are not known excepting by members of their families and perhaps a few favored friends.

The trout season is from April 14 until August 1, according to the sort or arrangement that now prevails, and naturally it follows that April 14 is a better time to fish than August 1. Hence it is estimated that fully 2,000 people from Washington, Allegheny, Fayette and one or two other nearby counties will be found in favored haunts of Center, Forest, Fayette, Fulton and Bedford counties today.

The following applicants were refused:

Ewing B. Swaney at Shoaf, Georges township; Max Hannan at Keist, Menallen township; David L. Carson, Carson House at Banning Perry township; Watt & Di Natale, Hotel Banning, at Banning; William Barton, Smithfield Hotel, at Smithfield; Luke P. Melia, Barr House, at South Brownsville and Charles G. Teed, Teed House, at Uniontown.

## "SHORE ACRES" TO BE MAJESTIC ATTRACTION

"Shore Acres" will be the attraction at the Majestic theatre this evening instead of Tuesday evening as previously announced. The picture is a five act production with Charles Stevenson in the leading rode. The picture is a screen production from a well known New England classic.

### To The Citizens of Charleroi.

Whatever your profession, whatever your station, you are, to some extent, responsible for the influences that surround the children of this city. If you are awake to the forces of the present-day life, you have realized, long since the tremendous power of the Cinematagraph or moving picture. It is here to stay, and it is with you to direct its use.

Shall it be for good or evil?

Charleroi is characterized by its strong schools, its active churches, and its loyal boosting citizens. Let us join hands in giving to our public wholesome and uplifting entertainment.

The demand cannot be denied. The only thing we can do is to determine the quality of the supply.

We the management of the Majestic Theatre are at your service. 240-tf

Entered at the Post Office at Charleroi, Pa., as second class matter

## AGAINST THE ANCIENT ENEMY

"The mistakes and misunderstandings of the past will be forgotten and the party will again be united and harmonious."

That is an important part of a statement of recent date made by Senator Penrose, recognized as one of the Republican leaders in the United States. Senator Penrose is cheerfully confident for Republican success in the next Presidential campaign. "It is very evident," he says, that the Progressives, so called, are coming back to the Republican party. The last election the country over demonstrated that pleasing fact. They will continue to come back in increasing numbers."

Senator Penrose urges that only regular Republicans be nominated as candidates in the several counties in the state and he contends that the voters should be allowed to name their candidates without influence or guidance from the outside.

Senator Penrose deplores the assaults on the legitimate business of the country being made by certain of the departments of the government at Washington, and he rightly contends that these assaults cannot change the facts concerning conditions or even the knowledge of the facts which are brought home keenly every day to struggling and oppressed business men and to the vast army of unemployed in so many sections actually verging on starvation.

People not only in Pennsylvania but in almost every state in the union are heartily tired of waiting for improved conditions. Confidence has not been restored, business has not improved and business seems to have abandoned hope. Wage earners and wage payers alike are determined that relief is possible only through the return of the Republican party to power, not only in Pennsylvania, but throughout the entire nation.

## CONCRETE ROADS.

If all the advance notices are correct, Washington county can build better and wider roads and save money by building them of concrete.

The same material goes into the concrete road from the base to the top. There is not a base of one kind and a top of another, but a solid concrete construction from the subgrade to the top. There is no sort of an arrangement like is used for a brick road, with a concrete base and a brick top. Yet this kind of road is in the long run cheaper, they tell us, as well as better. They don't get out of repair easily, making the upkeep much less than for the brick road. This by the way is a big item of expense.

If Washington county can save money by building concrete roads and make them better, then at a venture everybody is for them. Anyway the idea of concrete highways appeals to the popularr imigination and represents to the motorist a sort of paradise. However, the chief matters of concern are efficiency and economy, and there is reason to believe these two virtues are obtained in concrete construction.

You are cordially invited to attend our Annual Spring Opening Thursday April 15, 1915. Morning, afternoon and evening. Souvenirs, orchestra and victrola music. Pfleghardt's 416-418 Followfield. 238-t3

Carroll's Drug Store.

"Willie, at a party given by his sister, was allowed to participate in the spanking game and sat amid a circle of beautiful girls of 19 or so. The lights went out, the usual grabbing of favors began and when the lights went up again, Willie was to be seen crying bitterly.

"'What's the matter, Willie? Didn't you get anything?' a lady asked.

"'No,' sobbed Willie spitefully, 'As soon as it got dark that fellow named Sam with brown whiskers—boo, hoo—he grabbed my hands and did not stop kissing them till the lights went up again.'"

The employer of a Polish girl who has learned quickly to speak English tells of her attempted mastery of the telephone. After its use was explained to her, she was eager to answer every call. A ring came and she jumped to the telephone.

"Hello," came from the receiver.

"Hello," answered the girl, flushed with pride at being able to give the proper answer.

"Who is this?" continued the voice.

"I don't know," exclaimed the maid, "I can't see you."

## MAY KEEP ADDRESSES

Continued from page one.

addresses. Judgments are certified to the county commissioners, with the address of the plaintiff. This is required of the prothonotary. In turn the commisioners send these judgments out to assessors and by them it can be ascertained who has money out at interest, and who are required to pay tax on the same. For that reason it is necessary that the correct address of the plaintiff be certified to the commissioners. The prothonotary will hereafter not enter a note until the plaintiff's address is properly certified.

—Cincinnati Enquirer.

Once through a pasture field he crept
With footsteps soft as silk.
Next morn the milkmaid wildly wept—
The cows held up their milk
—Newark (O.) Advocate

**Luke McLuke Says:**

The woman who paints her face and wears clothes that make her look like an advertisement shouldn't complain because she attracts attention.

Us roughnecks may be dumb. But we still insist that a man who wears two watch crystals with tortoise shell rims isn't any better than we are.

A good working dictionary has a vocabulary of about 80,000 terms. And some men can use the whole 80,000 and not say anything.

The man who is trying to support a wife and a few children on $10 a week knows that all the peons are not located in Mexico.

Another sure thing is that a woman is always older than she thinks she looks.

The man who imagines that his nickel's worth of religion pays up his fire insurance from Sunday to Sunday feels sorry for the rest of the world.

This would be a fine world if we were as eager to take advantage of our opportunities to keep quiet as we are to take advantage of our opportunities to talk.

When there are two or three grown children in the family the only place on the hall rack where father can find room for his hat and coat is the nail on the back of the cellar door.

You can make a woman believe that white is black. But you can't make her believe that clothes can be comfortable and stylish at the same time.

Why is it that almost every man believes that almost everybody else is happier than he is?

If the kisses men give women were as passionate as the kisses women give other women there wouldn't be much trouble in the world.

One thing we like about a woman who does her own housework is that she hardly ever has time to lavish affection on a lap dog.

A modern princess does more prompting to go to a grocery store for a bar of soap than an old fashioned girl did when she was going to a dance.

There are about 987,000,000 ways to get yourself in bad, but the easiest way is to go to a woman and knock her husband behind his back.

The old fashioned girl who used to make baby clothes now has a daughter who is making a name for herself.

## PICTURES OF BATTLES.

**Warfare Has Always Been a Popular Subject For Artists.**

From the earliest days of history war has given inspiration to the artist, and the work of his hands comes down to us on the walls of ancient Egypt, worn with the passing of thousands of years; from the ruined temples of antique Greece, built centuries before the Christian era. The picture writing of primitive and savage peoples describes exploits of war, many crude war pictures, brought to New Mexico years ago under desert sands bear much similarity to Indian drawings of our own near time and land.

Once, years ago, away up on the Poplar river, in Montana, I bought—bartered for, I suppose I should say, as the purchase was made mainly by the medium of tea, tobacco and sugar—a "painted" robe right off the back of the war chief of a band of Yanktonnais Sioux our troops had "rounded up" and brought into the agency. The skin was a fine "black bull," tanned on the underside to the softness of the finest chamois leather and decorated with naive pictorial representations of the deeds of war of old Kill-Them-In-a-Hole—as the soldiers translated the name given the chief from some episode in his murderous career—which in color, in grace and firmness of line were curiously like pictures from the pencil of some artist of the Egypt of old.

The glory of war is the theme: the exaltation of the sovereign, the conqueror, forms the chief motive of the war picture of antiquity. The monarch was the hero before whose terrible sword all foes gave way, to whom victory came through his personal might and prowess. The warriors of the Greeks are shown as models of virile strength and grace; their attitudes in the fury of combat lost nothing of artistic beauty in the realism of the rendering. The influence of the Greek masters of their art is evident in battle pictures of a time twoscore and more centuries later.—Rufus Fairchild Zogbaum in Scribner's.

## MEDIEVAL PUNISHMENTS.

**Queer Old Laws of England That Have Never Been Revoked.**

Although the stocks, like the pillory and the ducking stool, have been done away with, a lot of punishments survive in England which are every bit as medieval.

The most ludicrous of these exist in the two services—the army and navy—which were renowned in the past for the cruelties practiced in them in the name of justice. "Keelhauling" as carried out in the navy used, of course, to amount to execution by drowning, while in the army "running the gantlet" was a popular way of punishing troublesome soldiers.

Here is another queer punishment which never has been removed from the statute book. If you are motoring or driving in England beware lest you run over anybody, for if you do so and cause his death your motorcar or carriage can be confiscated. Even a falling tree that caused the death of a human being can be taken from its owner.

The strangest punishment which still survives under modern law in England is that of "outlawry." Only a few years ago—in 1906 to be exact—a lawyer charged with forging a check was "outlawed" in the Glasgow high court. By this sentence the person of the accused is declared forfeit. He cannot bear testimony in a court nor sue nor defend an action. He cannot act on a jury nor vote at an election nor act as tutor or guardian to another person. If any one robs him he has no redress. If any one kills him it seems rather doubtful if that person can be hanged.—Pearson's Weekly.

**One of New York's Tiny Streets.**

New York has some queer streets, and Edgar street is one of them. It has been built up solidly on both sides from end to end for generations, but it has no numbers, and no one lives on it, and no one does business there. The letter carrier never stops. It has only one door, and that is kept locked and never used. Fifteen long steps take one along the sidewalk from one end to the other. Queer little thoroughfare is Edgar street, lying between Broadway and the Hudson, below Rector street, in oldest old New York.—New York World.

## SKIN OF THE FRUIT.

**It Is Wise Not to Eat Apples or Pears Without Peeling Them.**

Some people say that an apple does not taste right when the skin is removed. Some even go so far as to say there is danger in eating fruit that has come in contact with the steel of the paring knife, as the acid in the fruit is apt to produce some poison when it comes in contact with the metal. But whether these things are true or not, there is still greater danger in eating apples without peeling them.

The skin of the apple has always been more or less infested with germs of different types, and now our modern methods of fighting insects by spraying the trees are liable to leave poisonous deposits on it which will do our stomachs serious harm.

Arsenate of lead, lime and sulphur wash and a number of other spraying compounds used by fruit growers have been found to remain in considerable quantities on the skin of apples and pears until ripe and placed on the market. The action of such chemicals upon the tissues of the human body is very injurious.

Spraying the trees is giving us more perfect fruit and getting the grower better prices, but if you value your health you should never eat apples or pears without first removing the peels.—New York American.

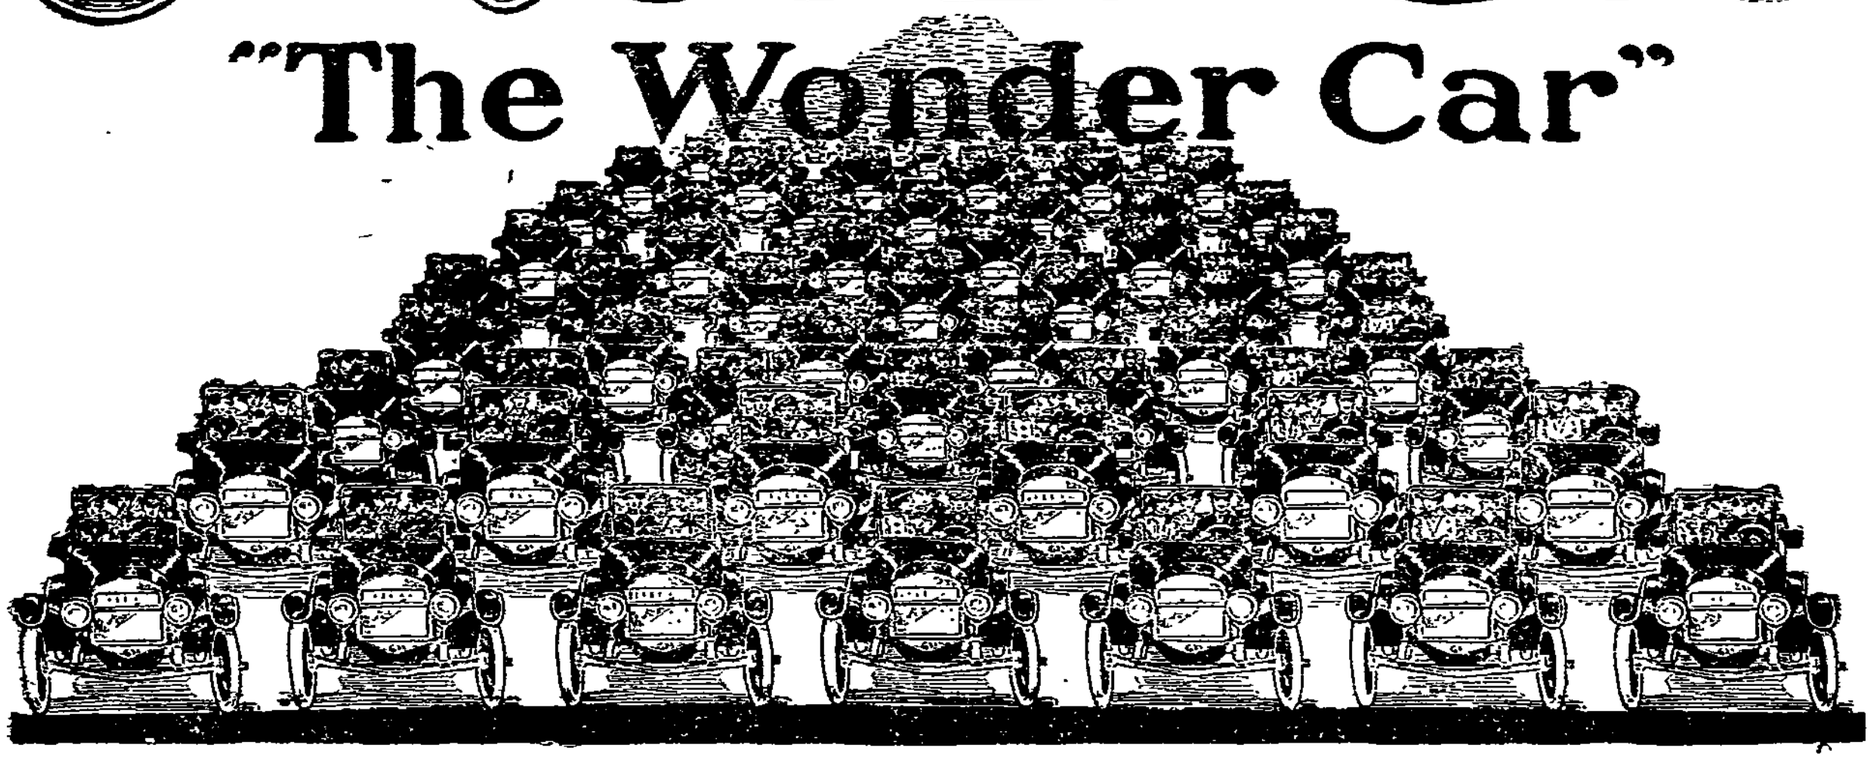
# Maxwell

## "The Wonder Car"



## 38,000 owners have given the "acid test" to 38,000 Maxwells in the last 18 months

**Every car made in the gigantic Maxwell factories is just as finely finished, just as handsome an automobile as if it were especially made to be exhibited at the New York Automobile Show, or some dealer's fancy Showrooms.**

BUT—and here is a great big BUT—38,000 of these Maxwell Cars have actually been turned out and have actually been driven thousands of miles by 38,000 Maxwell owners.

These owners have driven their Maxwells up hill and down hill—over all kinds of country roads and over city streets, everywhere that four wheels will go.

Most of these 38,000 Maxwells have been rained on, snowed on, and put to every kind of a rough and tumble test that time and use can give a car—and that's what we mean by the "Acid Test."

If you have any neighbors among these 38,000 happy owners, ask them to tell you all about their experience with their Maxwells.

If you don't happen to know any neighbors who own Maxwells, here are a few facts to think about—things to consider—then you can come in and see this "Wonder Car" and add up these facts for yourself.

**But don't forget this—the Maxwell we will show you is an exact duplicate of these 38,000 tried and true Maxwells that have stood the rough and tumble "Acid Test."**

*And Here Are Some Vital Points to Think Of*

Satisfaction and Service in a Nutshell

To the automobile owner satisfaction and service means a car of beauty, refinement and comfort of appointment. One that possesses the many comforts, is easy and simple to operate, properly designed and constructed of the best materials and whose operative cost is very low—the wants motor car efficiency and maximum service.

All This Has Been Accomplished in the Maxwell

Through the high ideals and standards, wonderful engineering genius, remarkable resources and the accumulated experiences gleaned from years of automobile experience, the Maxwell organization have accomplished what a few years ago many said was impossible.

The Maxwell is Not the Result of an Experiment

It was not luck or the result of an experiment on the public, but good hard business judgment that made the Maxwell of to-day possible.

Able engineers spent months designing this powerful, efficient, light-weight car. The best metallurgists in the world's famous laboratory (the Maxwell's own plant) tested materials and formulated new heat treatment that gave this car a remarkable light weight and yet the great strength which it possesses and which stands all the abuse heaped upon owner-driven cars.

It was real genius that gave to the Maxwell the powerful motor that enables Maxwell owners to go wherever four wheels will travel, over all roads, up all grades, through any sand, any mud.

Beauty and Comfort as well as Strength

And Maxwell builders added to this "wonder car," not only all the conveniences, power and durability, but also the refinements and beautiful lines of the much higher priced cars. Pure stream lines, crown fenders, fine upholstering and all the little details that make Maxwell owners proud of their car.

Every Feature of Mechanical Construction

Every feature of mechanical construction that is to be found in cars selling at many times its price will be found in the Maxwell. And in addition there are many mechanical features that are strictly of Maxwell design. How we have improved the lamps, made them rattle-proof by using extra braces and eliminated the hinges made them dust-proof, easy to clean and adaptable to use in any desired position; the manner in which we have protected one of the best radiators that money can buy from the many twists and strains of the car, in fact, constructed a full floating radiator—the way in which Maxwell has provided for proper lubrication and thorough cooling of the motor and has given one square inch of braking service for every twelve pounds of weight; how our engineers have equipped Maxwell cars with a spring tension fan that adjusts itself to any pressure on the belt, makes the "Wonder

## The Maxwell Company's Guarantee of Service to Maxwell Owners

**No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices.**

**This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.**

**Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day**

## OUR CITIZEN'S DEMAND

Fully Complied With. A Charleroi Resident Furnished it.

There are few items which appear in this paper more important to Charleroi people than the statement published below. In the first place, it is from a citizen of Charleroi and can be thoroughly relied upon. In the second place, it indisputably proves that Doan's Kidney Pills do their work thoroughly and not temporarily. Read this carefully:

Mrs. Thomas Christopher, 117 Lookout avenue, Charleroi, says: "One of the family did a lot of heavy lifting and strained his kidneys. He suffered severely from a dull, heavy ache across his back and he got so bad that he couldn't work. He was treated by doctors and tried various medicines, but didn't get much relief. The kidney secretions were discolored and caused much annoyance. The first few doses of Doan's Kidney Pills brought him relief and one box cured him."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Christopher recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

## AMERICAN ACHIEVEMENTS.

**Some of the Big Things to the Credit of This Great Country.**

Americans founded the first government under which all men were equal before the law. Since the Declaration of Independence was published to the world the democratic idea has hourly received impetus and its march seems irresistible.

Americans were the first to demonstrate the possibility of relying on a citizen soldiery to defend the land and its institutions against foreign or domestic attack.

Americans were the first to abolish feudal distinctions and to deprive social eminence of any support save character or the greatness of those who chose to consider themselves socially elect.

It was an American who invented the steamship.

An American invented the telegraph.

An American invented the telephone.

An American invented the electric light.

An American invented the reaper which makes it possible to feed the billion and more people on this planet.

It was an American, too, who invented the sewing machine.

Americans also were the conquerors of pain when they discovered how, by means of sulphuric ether, the tenderest human nerves could be made insensible to the surgeon's steel.

Americans opened the ports of Japan to the nations of the world, made a path into darkest Africa, and an American crowned the geographical achievements of his countrymen by discovering the north pole.—Pittsburgh Press.

## HUMOR OF LINCOLN.

**How the President Sized Up the Confederate Forces.**

A visitor once asked Lincoln how many men the Confederates had in the field. The president replied very seriously:

"Twelve hundred thousand, according to the best authority."

The visitor paled as he said:

"Good heavens!"

"Yes, sir, 1,200,000. No doubt of it. You see, all of our generals when they get whipped say the enemy outnumbered them from three or five to one, and I must believe them. We have 400,000 men in the field, and three times four make twelve."

A delegation once waited upon Lincoln to ask the appointment of a certain man as commissioner to the Sandwich islands. Besides his fitness for the place, they urged his bad health. But the president in reply said, "Gentlemen, I am sorry to say that there are eight other applicants for that place, and they are all sicker than your man."

A woman came to the White House one day on an unusual errand, which Lincoln suspected was a pretext, but he took her at her word and gave her the following note to a major of the quartermaster's department: "My dear sir, the lady bearer of this says she has two sons who want to work. Set them at it if possible. Wanting to work is so rare a merit that it should be encouraged. A. Lincoln."

**The Black Bear.**

It is the common idea that a black bear will hug people to death. This is, of course, a mistake. A bear almost invariably makes its attack by striking a stunning blow with the fore paw and tearing with his very formidable claws. A large black bear can strike a terrific blow and is capable of knocking down and mortally wounding a full grown caribou. When their enemy or prey is felled to the ground they usually bite them about the head and neck until death ensues. They are remarkable for the strength of their jaws and have been known to bite through the skull of a man. Many animals that can generally be counted on not to attack may do so when come upon suddenly, crowded, wounded or annoyed. The black bear is no exception. The more I see and study animals the more I am impressed with the fact that there is no fixed rule what the same species of animal will do under similar circumstances, as they seem to vary as much in mind and temperament as the individual. Although one might predict with a very good average of correctness, there would always be the exception.—"Big Game Fields of America."

**On Having the Blues.**

If without any real cause of worry, says a writer in the Unpopular Review, you wake up two or three consecutive mornings feeling that the world is an unsatisfactory place probably you had better go to the doctor. He won't be apt to give you anything worse than rhubarb and soda. You might even try it before going, and if it is a sunny day try to glory in it, out of doors if possible, and if it is a rainy day try to thing how cozy it will be by the fire, or if you have to go to an office how good it will be to have a day for steady work, when clients and customers are not apt to come in.

In similar vein Kipling prescribed for a case of the blues, which he referred to as a "camel-ious hump," you remember, common to "kiddies and grownups too." When the hump rests heavily upon you, said Mr. Kipling—

Don't frown; with a book by the fire,
But take a large hoe and a shovel also
And dig till you gently perspire.

**Made Over.**

"I'm all out of kelter," declared the typewriter man. "My arm feels loose, my back seems twisted, and my left leg is shaky. What would you advise?"

"I think I'd get myself rebuilt," suggested the automobile manufacturer.—Kansas City Journal.

Mrs. Clyde Bradley is ill.

Born—To Mr. and Mrs. William Mooley a daughter.

Mrs. Fred Randum and daughter have returned from Pittsburg.

Walter Woods returned to his home in Pittsburg after visiting relatives here. He was accompanied by Mr. and Mrs. David Woods.

John Pelky, Sr., is ill.

Mr. and Mrs. John Pelky, Sr., have moved to Eldora.

For the quick relief of RHEUMATISM (Muscular and Sciatic) Lumbago, Neuralgia, Sprains and Stiffened Joints Use AMMANN'S LINIMENT Price $1.00 per bottle An honest preparation guaranteed by the maker HENRY AMMANN, Druggist Carroll and W. Liberty Aves. Pittsburgh, Pa.

# RURAL CARRIER NOW HAS "SOME" POSITION

**According to Latest Order R. F. D. Man Not Only Delivers and Collects, But Does a Lot of Other Duties Too Numerous to Mention**

The postoffice department has issued the following order relative to the duties of rural carriers: Section 752 of the Postal Laws and Regulations amended so as to read as follows:

"The official duties of rural carriers shall be the delivery into and collection from boxes on their routes of mail matter of all classes, serving of postoffices with mail whenever such service is authorized, sale of stamp supplies, receiving and receipting for matters presented for registration, delivery of registered matter, the handling of registered matter in transit over their routes, taking of applications for money orders and the money therefor, the acceptance of parcels for insurance, the acceptance of C. O. D. parcels, the forwarding of mail addressed to their patrons and the transfer of mail of former patrons whose addresses have been changed to other routes, the erection of United States colection boxes and the performance of such other duties as may be required of them by law and the regulations of the department"

### The Ever Present Casus Belli.

Judge—What's the row between this man and woman? Policeman—You see, they're married and— Judge—Was there any other reason for the fight?—Philadelphia Ledger

### Paradoxical.

He—You have but a week now to think over my proposal of marriage. She—Yes, and the more I think of it the less I think of it.—Boston Transcript

### Cynical Wit.

Less brains are required to say brilliant bitter words about people than to say brilliant kind words. The cynic's wit is easiest and cheapest.

### Slightly Sarcastic.

"I am convinced that in many respects I resemble George Washington," said the pompous man.

"It seems unfair," replied Miss Cayenne, "that in accident of chronology should have placed you at such a disadvantage. Merely because Washington was born first people say you resemble him instead of saying he resembles you. It really seems unfair."—Washington Star.

### Canadian Provinces.

The areas of the nine Canadian provinces in square miles are: Quebec, 706,834; Ontario 407,252; British Columbia, 357,600; Alberta, 253,540; Saskatchewan, 250,650, Manitoba, 251,832; New Brunswick, 27,985; Nova Scotia, 21,428, and Prince Edward Island 2,184.

Rheumatism

Just put a few drops of Sloan's on the painful spot and the pain stops. It is really wonderful how quickly Sloan's acts. No need to rub it in—laid on lightly it penetrates to the bone and brings relief at once. Kills rheumatic pain instantly.

Mr. James E Alexander, of North Harpswell, Me., writes. "Many years in my back and hips brought on rheumatism in the sciatic nerve. I had it so bad one night when sitting in my chair, that I had to jump on my feet to get relief. I at once applied your Liniment to the affected part and in less then ten minutes it was perfectly easy. I think it is the best of all Liniments I have ever used."
